# Freelancer Specs

Listed down below are slides which we would like design. The menu nav and the slides animations does not need to be coded as we have template for source. Only some content needs to be changed.

Note: Do not change the font included in the project `Source Sans Pro` .

Slide 1

COMPANY

$79

Individual license, support update*,
no monthly fees.

Specs

Slide 1

For Slide 1 you do not have to change the keyboard image as we can swap out later but we would like to add the heading to match design along with the 3 platform icons listed in the slide designs.

Slide 2

You do not have to do anything.

Slide 3

For slide 3 would like to have the pricing table coded to match the design. When hovering over a pricing table the background should be highlighted and the buy now button should reappear.

Slide 4 (last slide)

For slide 4 when you scroll beyond, would like for the footer to be revealed like the example down below.

See code pen example: https://codepen.io/JeffAspen/pen/ZLNmjN
